

Animal sitting business celebrates anniversary

One year ago Professional Animal Sitting Services, Inc. began offering pet owners an alternative to placing their pets in a kennel. Our service comes to you. Our belief is that pets would later stay in their home when their owners are away from home.

The owner, Gail Neeley a retired San Bernardino County District Attorney Senior Investigator, started Professional Animal Sitting Services, Inc. to provide service to pet owners in Yucaipa. Almost immediately the business grew to service pet owners in Highland and Redlands. One employee was added to help with the additional work. The business has grown even in these tough economic times because we offer a service that people need.

Our client's pets are a part of their family. They are loyal friends and trusted companions. Our clients have given us the best birthday present we could ask for, repeat business. Repeat business is important to

me because it tells me that we are doing our job.

Our clients are happy and so are their pets!

Yucaipa has been my home for over 20 years. The community is important to me. I am proud to be a member of the Yucaipa Valley Chamber of Commerce, and the National Association of Professional Pet Sitters, and a supporter of the Yucaipa Animal Placement Society. We strive to be a good corporate citizen and not just a money making enterprise.

Over the next year I will offer service to clients in Calimesa and Beaumont. An additional employee may be added this summer. Continued growth would be nice but the core concept of the business is exceptional customer service and that will not be sacrificed. Service prices range from \$20 to \$27 per visit.

For more information on our services visit www.animalsittingservices.com or call 801-1062.
